

SERIES-3000

APPLICATIONS:

- ▶ - HOUSES OF WORSHIP
- ▶ - LIVE/CONCERT SOUND FILLS
- ▶ - CLUBS/LOUNGES
- ▶ - THEATERS/LIVE VENUES

DESCRIPTION:

Purpose-Designed

The 3000-series from Sound Bridge are 2-way, full-range devices with integral passive crossover networks. The series was designed specifically to compliment 7000-series systems in a variety of uses for both the concert/live sound and the permanent installation markets.

3000-series enclosures supplement 7000-series line array systems by serving as front-fills, under-balcony speakers, delay ring speakers, and in many other capacities. 3000-series enclosures also work well in smaller, lower-ceiling rooms and as distributed systems.

Horizontal Configuration, High Output

The 3212HTH is a horizontally-configured enclosure that is well-suited for stage-front and under-balcony situations where high-output is needed. With dual 12" drivers, the 3212HTH delivers 134dB peak output with low-frequency extension below 50Hz. The internal crossover is switchable, allowing for biamp (with dual-drive option to run the 12" drivers independently) or full-range passive operation. The cabinet includes integral steel rigging points, allowing easy suspension with the use of standard shouldered eyebolts.

Durability

3000-Series enclosures are finished in 100% solid tour-grade Duracoat™. This long-life surface is highly abrasion resistant so boxes stay new-looking, even in rigorous applications.

Custom Colors

3000-series enclosures are available in custom colors to match the décor of the venue they are being installed in. Practically any color is possible, based on matching a customer-provided sample or Pantone color.

SPECIFICATIONS:

Horizontal Dispersion: 110-degrees

Vertical Dispersion: 70-degrees

Frequency Response: 50Hz -to- 18kHz, +/-3dB

Max SPL: 128dB SPL Cont., 134dB SPL Peak

LF Drive Unit(s): (2) 12" Cone Driver

HF Drive Unit(s): (1) 1" Titanium HF

Sensitivity: 100dB 1w/1m

Power Handling: 600w (Cont.), 1200w (Peak)

Impedance: 4-Ohms

Cabinet Construction: 13-Ply 3/4" High-Quality Baltic Birch plywood with dado joints, recessed baffle and 16-gauge front-perforated steel grill

Cabinet Finish: Tour-Grade Duracoat™

Connections: (2) Neutrik NL-4 Speakon

Dimensions (Imperial): 19.8" x 37" x 19"

Dimensions (Metric): 50.3cm x 94cm x 48.3cm

Weight: 89lbs (40.5kgs)

Available Accessories: EB-3816 3/8"-16 shouldered eyebolt for rigging
