

Application

The 4118SW is an extended low-range system designed for a wide variety of speech and music applications, such as clubs, churches, or concert settings.

Amplification

The 4118SW is a Modular System. While it is sold and shipped as a Powered Product it can also be purchased without the amplifier to be upgraded later. The Amplifier is a revolutionary 400 watt "transformerless" amp that is optimized for each cabinet in the Series 4000. It weighs less than 3 lbs.

Description

The 4118SW is rectangular in shape with a curved front, perfect for stacked or under stage applications. It is designed to be utilized as a low frequency enhancement to the 4000 series full-range powered speakers.

Cabinetry

The cabinet design uses a 13 ply 3/4" (18mm) high quality baltic birch plywood with dado joints, recessed baffle and a 16 gauge front perforated grill for long lasting durability. The baffle is cut from 1" MDF to enhance acoustical properties and to give the components a rigid interface. Two Neutrik Speakon connectors and Two Neutrik parallel 1/4" jacks (passive) and One XLR iMale/ One Feamle (active) are installed on all speakers in the 4000 series.

Transducers

The cabinet is loaded with a 18" cast aluminum low frequency driver in a tuned vented enclosure. The cabinet is tuned by means of averted ports set at the optimum frequency.

Specifications

Frequency Response:	35Hz-800Hz
Power Handling:	400w (cont.)
Sensitivity (1 watt/meter):	99dB
Nominal Dispersion:	N/A
Impedance:	8 Ohms
Transducer Components	
Low Frequency:	18" woofer
High Frequency:	None
Audio Input Connections: Two Neutrik Speakon connectors and two Neutrik 1/4" jacks.(passive) One XLR Male/ One Female (active)	
Enclosure:	Vented
Crossover:	Low Pass
High Frequency Protection:	N/A
Steel Pole Mount:	Yes, Inverted
Physical	
Dimensions (H x W x D):	30" x 22" x 29.3" (76.2cm x 55.9cm x 74.6cm)
Weight:	115 lbs./52.3 Kg
