

The 5000 Series ... the ultimate speaker system.

The 5000 Series speakers were designed for the professional contractor or touring professional requiring high power, extremely accurate sound reinforcement. Only the finest components and materials are utilized in the manufacture of this series.

Cabinetry

The cabinet design uses a 13 ply (18mm) high quality Baltic Birch® plywood with dado joints, recessed baffle and a 16 gauge front perforated grill for long lasting durability. Waterproof adhesive is utilized for lasting durability under the most adverse conditions. The baffle is 1.5" in thickness to enhance acoustical properties and to give the components a rigid interface. For lasting appearance the cabinet is finished with Polane-T® texture coating.

Electrical Connections

Two Neutrik Speakon connectors are installed on all speakers in the 5000 series.

Transducers

The 5118SW is loaded with a 18" woofer yielding excellent power capability.

Specifications

Frequency Response:	35hz-500hz
Power Handling:	600w rms / 1200w program
Sensitivity (1 watt/meter):	98dB
Impedance:	8 Ohms
Transducer Components:	18" woofer
Input Connections:	Two Neutrik Speakon connectors
Enclosure:	Vented
Physical	
Dimensions (H x W x D):	24.3" x 23" x 29" (61.7cm x 58.4cm x 73.6cm)
Weight:	89 lbs./40.5 Kg
